Fair Housing Calendar of Activities

"....I would like that all kids would have a clean and secured house in a nice and friendly neighborhood. Where we could play in the streets with other kids in the neighborhood, and that people wouldn't discriminate us because we were hispanic, because we talk spanish, because our parent earn a little money, because our parents don't have papers and have a lot of kids, because we were a different race, and because our mothers don't know how to drive. I wish we could all be treated equal and we could all live happy and secured in our neighborhood and we could all take care of each other like one family." - Poster & Essay by James Ledesma, 11 years old, Grand Prize Winner
